

INFORMATION TECHNOLOGY

# New

The *Information Technology Committee* will continue

to meet during the 1996-97 academic year while Systems Improvement Team

#2/Information Technology and Communications continues to define its role within the College.

*Remember: If you buy a computer, you must also buy software!*

*Always use account 642 for computer software.*

## WHATEVER HAPPENED TO THE "GREAT SOFTWARE PURCHASE OF '96"?

Well, what didn't happen to it? Missing DSMD letters, vendor takeovers, CD-ROM instead of floppy diskettes, Windows '95 instead of Windows 3.1, mass confusion--all of this happened. The orders have been delayed considerably but are still in the works. As soon as the software arrives, those of you who requested it will be notified by Debbie Grimes. **Thank you Joyce Kelley for handling all of these problems!**

## WHAT DO I DO IF I NEED THE SOFTWARE DOCUMENTATION (i.e., the manual)?

Only a few sets of manual were purchased with the multi-license academic packs. There will be copies available in the Skyland Campus Library upon request. However, the best advice of the ITC is to go to a local bookstore, browse through the how-to books on your piece of software, and purchase one. With a receipt, your supervisor may request a petty cash reimbursement for this cost (up to \$25.00; ask your supervisor in advance). Tax is not reimbursed.

## HOW TO REQUEST COMPUTER HARDWARE

1. IF using the ITC bid list, request a copy of the bid list from Joyce Kelley in the Business Office. The current list is effective through September 26; new hardware bids will be issued as soon as possible.

If using the equipment and pricing (usually higher) on the state bid list, request information from Joyce Kelley in the Business Office. Be sure to give her the specific type of computer hardware you wish to use. Then, with specs attached, submit a request to the ITC for approval.

If generating your own bids, submit the specs to the ITC for approval PRIOR TO requesting a bid by Joyce Kelley.

2. Ask your dean/supervisor to prepare a letter requesting DSMD approval and submit it to the VP for approval and mailing.
3. When DSMD approval is returned to the Business Office, the dean/supervisor will be notified.

4. Proceed with the requisition

use for Shelton State, but no individual e-mail accounts will be available. Instructions will be posted by each workstation. More information will be provided when the workstation are ready for use.

**Reminder:** Guest accounts are available from UA at no charge. If you would like to apply for a UA Internet/WWW account, contact Debbie Grimes.

HOME PAGE FOR SHELTON STATE  
ON THE WORLD WIDE WEB

Bradley Moore is leading a team to develop a "home page" for Shelton State. This "page" can be used to provide information, including visuals and audio, about the college. Once it is made available, people from all over the world will have easy access to this information. If you would like more information about this project or if you would like participate as a member of the "Web Team," contact Bradley Moore.

**Reminder:** The College's policy on computer software use places responsibility for legal and ethical use of software on the shoulders of individual employees and their immediate supervisors. Colleges are being audited and sued for copyright violations--including some in Alabama.

*General software bids, opened August 21, will be effective through November 21.*

*General hardware bids will be revised soon for fall purchases.*
